

Position: Auto Electrician Product Specialist (MAN) Location: Namibia

Our client within the passenger transport industry is seeking an experienced and qualified Auto Electrician Product Specialist (MAN) to join their technical workshop team based in Cape Town.

The successful candidate will be responsible for diagnosing, repairing, maintaining, and supporting the electrical systems of heavy commercial vehicles while ensuring optimal fleet reliability, compliance, and technical performance.

Key Responsibilities

- Conduct vehicle electrical inspections, diagnostics, and repairs
- Ensure all vehicle faults and repairs are accurately recorded on the job card system
- Diagnose and repair fault codes on heavy commercial vehicles
- Perform electrical maintenance on engines, gearboxes, brakes, EBS/ABS systems, air systems, alternators, batteries, starters, suspension systems, looms, and control panels
- Conduct post-repair inspections and testing
- Ensure all repairs comply with manufacturer specifications and workshop standards
- Provide technical failure reports on electrical and mechanical components
- Support breakdowns and roadside assistance from initial call-out through to resolution
- Ensure workshop equipment, tools, and systems are properly maintained and utilised
- Supervise productivity and provide leadership and mentorship within the workshop environment
- Ensure compliance with Health & Safety standards and workshop procedures
- Maintain accurate records and utilise workshop systems effectively

Minimum Requirements

- Qualified Auto Electrician or Diesel Mechanic Trade Test Certificate
- Minimum 6 years' relevant experience within heavy commercial vehicle or bus environments
- Strong experience with vehicle diagnostics and electrical systems
- Code EC licence with valid PDP
- Valid passport
- Own toolbox essential
- Computer literate
- Willingness to work shifts and breakdown standby when required

Key Skills & Technical Expertise

- Heavy Vehicle Electrical Diagnostics
- MAN Bus & Truck Systems
- EBS & ABS Brake Systems
- Vehicle Fault Finding
- Engine & Gearbox Electrical Systems
- Air Suspension Systems
- Trailer Electrical Systems
- Workshop Operations
- Preventative Maintenance
- Breakdown Support & Roadside Assistance
- Technical Reporting
- Health & Safety Compliance
- Electrical Repairs & Maintenance

- Workshop Administration Systems
- Team Leadership & Mentorship

Ideal Candidate Profile

The ideal candidate will be technically strong, hands-on, and capable of working independently within a fast-paced workshop environment. Strong problem-solving ability, attention to detail, and experience within heavy commercial vehicle maintenance environments will be essential for success in this role.

Interested candidates, please send a complete, detailed CV to us via email by no later than 30 May 2026. Please attach to your email all certificates. Send via email to apply@prospectinc.co.za

Closing Date: 30 May 2026

Start Date: ASAP

We look forward to receiving your application.

Disclaimer: Due to the high volume of applications received, only shortlisted candidates will be contacted. Should a candidate not hear from us within four (4) weeks following their application, they should consider their application unsuccessful. Strictly fair and non-discriminatory selection procedures will be followed
